

Preparation P3O® Portfolio, Programme and Project Offices Practitioner

Around the world, there are many organizations in both the public and private sectors, who recognize that their portfolio, programme and project management is best supported through a delivery support office. PRINCE2®, Managing Successful Programmes (MSP®), Management of Portfolio's (MOP®) and Management of Risk (M_o_R®) all touch on the need to provide adequate support structures. This P3O Practitioner training course provides a single source of information for guidance or advice on setting up or running an effective delivery support office. Portfolio, Programme and Project Offices (P3O®) is a Best Management Practice certification that brings together a set of principles, processes and techniques to facilitate effective portfolio, programme and project management through enablement, challenge and support structures.

Why take this P3O Practitioner training?

The purpose of the P3O Practitioner training is to obtain sufficient knowledge and understanding of the P3O guidance to design, implement, manage or work within any component office of a P3O model. Candidates will have an overall understanding of the elements, roles, functions and tools and techniques deployed in a generalized P3O model. Additional training may be required if the candidate is to take up one of the specialist roles in the P3O organization.

Course Student Material

Students will receive a P3O Practitioner classroom workbook containing all of the presentation materials, course notes, case study and sample exams. As a prerequisite, students need to acquire the official AXELOS P3O manual.

Who should attend?

P3O Practitioner is aimed at candidates wanting to take an active role in any of the offices described in the P3O model. While it is particularly suited to candidates fulfilling the management, generic or functional roles described in Appendix A of the P3O guide, it will also be relevant others who see the P3O model as a framework for a career path.

P30 Practitioner certification

Upon successful completion of the training and examination, students will receive the P30 Practitioner certification.
